

## CERTIFICATE OF CONFORMITY

*We hereby certify that the following item complies with the features listed below.*

### Item

|             |                                                                                      |
|-------------|--------------------------------------------------------------------------------------|
| Reference   | <b>SFERACO Fig. 179</b>                                                              |
| Description | <b>CAST IRON KNIFE GATE VALVE BIDIRECTIONAL THROUGH CONDUIT - from DN50 to DN600</b> |

### Main features

|                |                                                                 |
|----------------|-----------------------------------------------------------------|
| Body           | <b>GG25 from DN50 to DN300 GGG40 or GGG50 above</b>             |
| Closure member | <b>Gate F304</b>                                                |
| Seat           | <b>EPDM</b>                                                     |
| Connections    | <b>Between flanges PN10</b>                                     |
| Specifications | <b>Bidirectional tightness, Non rising stem &amp; handwheel</b> |

### Operating conditions

|        |                                                                                                                         |
|--------|-------------------------------------------------------------------------------------------------------------------------|
| Fluids | <b>Paper industry, water, water treatment, waste water, chemical pulp, food industry, chemistry, transport, storage</b> |
| PS     | <b>10 bar up to DN125, 8 bar from DN150 to DN200, 6 bar from DN250 to DN300, 4 bar from DN350 to DN400, 3 bar above</b> |
| TS     | <b>-15°C to +130°C</b>                                                                                                  |

### Standards

**2014/68/EU Directive – Excluded according to article 4, §3**  
Quality management according to ISO 9001:2015

### Product guarantee

**2 years**
