

752-753 VALVE WITH SF SWITCH BOX

FEATURES

The 752-753+SFball valve is used to manually shut-off pipes with non-loaded industrial fluids, up to a pressure of 16 bar. The SF switch box makes it possible to see the position directly and has feedback information control. The 752-753 valve is a full-bore split-body valve, EC 2014/68-, ATEX-, fire safe- and ISO 15848-1-approved for fugitive emissions. Its dimensions are standardised according to EN 558-1 series 27. The SF switch box is provided with 2 dry switches (standard). Due to its IP67 leak-tightness, it can be installed both indoors and outdoors. Different contacts and detectors are available as options.

AVAILABLE MODELS

752: 1.0619 carbon steel body.

753: 1.4408 SS body.

DN 15 to DN 150 diameters.

PN16 RF flange connections.

Electrical connection: 2 x M20x1.5.

en option

LIMITS OF USE

Fluid pressure: WP	<u>DN 15 to 50</u> : 40 bar (20°C) <u>DN 65 to 200</u> : 16 bar (20°C)
Fluid temperature: WT°	Steel: -20°C / +200°C Stainless steel: -30°C +200°C
Ambient temperature	-20°C / +80°C
IP Code	IP67

SF-TYPE SOLDO SWITCH BOXES

FEATURES

The SF-type switch box is intended for equipping quarter-turn pneumatic actuators and manual valves. It makes it possible to have an easy, direct view of the valve position and of the feedback information to control. Of robust construction, it can be installed outdoors. The position indicator provides a very good visual reading of the valve position. The SF switch box can be equipped with many switches and detectors (see below). The notched cams can be manually adjusted with great accuracy, and are insensitive to vibrations.

AVAILABLE MODELS

SF: IP67 model

LIMITS OF USE

Ambiant temperature	-20°C / +80°C
IP Code	IP 67
SF	Outside ATEX zone

MECHANICAL CONNECTION

Axis dimension	According to VDI/VDE 3845
Attachment	ISO 5211 F05
Stainless steel arches for attachment on to the actuator	<u>NAMUR 0</u> : 50x25x20 mm <u>NAMUR 1</u> : 80x30x20 mm <u>NAMUR 2</u> : 80x30x30 mm <u>NAMUR 3</u> : 130x30x30 mm <u>NAMUR 4</u> : 130x30x50 mm

ELECTRICAL CONNECTION

Standard cable inputs	2 x M20x1.5
-----------------------	-------------

CONSTRUCTION

Casing and lid	Aluminium
Coating	Polyester paint
Stem	Stainless steel
Dome	Polycarbonate

OPTIONS

There are many options for which you are invited to contact our sales service:

	SS : stainless steel box
	3-Channel L or T indicators
L	LT : version -40°C (according to the type of switch)
P	LT 1 : version -55°C (according to the type of switch)
1	Cable inputs 1/2" NPT
	Pilot-solenoid valve wiring
G	EAC Certificate
U	UL Certificate
